Swatara Watershed Association  
20 Black Walnut Lane  
Annville, PA 17003

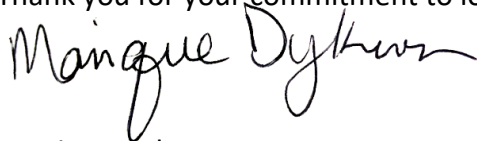

Swatara Watershed Association Leaders,

Londonderry Township of Dauphin County is actively working to protect local water quality. The Swatara Creek is one of three HUC 12 watersheds in the Township. At Londonderry Township, we operate under a Municipal Separate Storm Sewer System (MS4) permit regarding stormwater discharges; the permit aims to identify and prevent illicit discharges from entering the stream.

Additionally, we support clean water by hosting workshops, hosting watershed meetings and maintaining best management practices. The litter clean up hosted by the Swatara Watershed Association, the Swatara Sojourn, will complement our efforts to improve our local watershed, as well as educating the participants.

Further, Londonderry supports “Growing our State Parks”, and has planted and maintained over 9 acres of riparian buffers along the mainstem of the Swatara Creek, which we plan to maintain as a park. We are invested in local water resources, and would be glad to promote this event on our website and social media.

Thank you for your commitment to local water quality,

Monique Dykman

Londonderry Township  
MS4 Environmental Specialist

CHAIRPERSONS:  
Anna J. Dale – Chair  
Mel Hershey – Vice Chair  
SUPERVISORS:  
Mike Geyer, Ron Kopp,  
Bart Shellenhamer
